

KEEPING DIRT WHERE IT BELONGS – IN THE FIELD

LOCKWOOD®'s industry-leading separator, VACS MOBILE, efficiently and gently separates potatoes from dirt, rock, and field trash. Maximize the efficiency of your operation by adding LOCKWOOD handling equipment to your line up.

Completely mobile. Set up in the field or your yard.

Contained on one semi-trailer, towable at highway speeds.

VACS MOBILE™ SOLUTION

A third party study on skinning percentages had the VACS MOBILE providing a 30 – 35% reduction in skinning vs. the competition in the same conditions and potato varieties. Increase your profits by reducing your skinning. Calculate Your Potential Savings. Scan the QR code.
