

SIMPLY PRODUCTIVE

LOCKWOOD's 500 Series Windrowers are your tried and true harvest partner. Engineered with simplicity, strength, and less horsepower requirements, the 500 Series Windrowers save you time and money - an economical way to increase your harvest output and minimize your fleet costs.

Steerable rear wheels allow for shorter turns.

Variable speed hydraulic drive on the rear cross to eliminate bruising.

- ☺ Heavy duty, parallel link trailing coulters to cut the potato vines.
- ☺ Rear wheel lift for steeper angles on the primary and secondary for improved cleaning.
- ☺ Right or left hand discharge to accommodate each grower's needs.
- ☺ Longer machine for more efficient cleaning of the potatoes. (554XTS model)
- ☺ Digger nose available in narrow or wide.
- ☺ Available in center pull or offset hitch.
- ☺ Heavy-duty spindles, hubs and rims for longer life.

Hydraulic rear lift available. Add the power of hydraulics to your windrower and use your tractor's hydraulics system to raise and lower the rear of your 500 Series Windrower for optimum efficiency.
